

college mentorship
give little time, get big impact

SHORT TIME, HIGH IMPACT. HOW?

You become matched with one of our college students, who are driven and focused. You leave a positive impact in their life by helping them mature, progress and achieve their dreams. You engage primarily through social media, texts, and email. We shoot for a goal of a minute a day, or 30 minutes a month. That is less time than standing in line at the DMV, most people's commute time to work, or waiting for a cup of coffee 5 days a week!

WHY IS MENTORING NEEDED FOR COLLEGE KIDS?

Simply put, mentors change lives. They uplift, empower and build confidence of young men and women who can benefit from a positive relationship with an adult role model. They help mentees stay on the pathway of hope so that they ultimately receive a college degree. You can have the satisfaction in knowing that your commitment played an influential role in their success and that of the community.

OUR PROCESS

Esperanza will help find a successful match and suggest student/mentor group activities. Mentors will have to successfully complete the intake process which includes:

- Participation in 90 minute orientation
- Successful background check and reference check
- Completion of volunteer application

REQUIREMENTS

Mentors must be at least 21 years old and hold a post-secondary degree. All mentors must adhere to the program requirements and responsibilities which will be provided upon application to the program. We require a one year commitment, communicating for 30 minutes a month in a way that works best for you! This includes in person, text, call, Skype, social media, etc. We encourage that you meet in person 2x/year.

And, reporting reporting reporting. Just drop us a line on your progress in our MentorCliq program once a month (don't worry we'll show you how during orientation- it's easy peasy). Need more deets? Visit <http://bit.ly/2dc1ZBx>

ABOUT ESPERANZA

Esperanza has become the community's most visible Hispanic organization and the key to educational success. Innovation, and passion fuel our work, which concentrates on positive outcomes. With 85% of funds coming from charity, we are a trustworthy organization to invest funds in for the betterment of our community. Our 13 programs, serving over 1,000 annually, focus on the following areas: leadership, academics, mentoring & family support.
